

## Cedar City Happenings

Don't eat two kinds of meat nor two kinds of starchy food at the same meal.

J. M. Hendrickson of Parowan was seen spinning through town headed for the south Wednesday in his new Ford car.

Miss Mary Openshaw of Paragonah is in Cedar City nursing the patients operated on a few days since at the local hospital.

Dr. A. N. Leonard operated last Monday on two children of Mr. and Mrs. Samuel Ford of Kanarrville for nose and throat trouble.

Walter C. Mitchell of Parowan has spent the last day or two in Cedar in connection with the letting of the contract for the new school building.

Don't make fun of the health-faddist; he is probably doing the best he knows and probably has much better health than though he didn't do it.

The Cedar Mercantile & Livestock company has an important announcement in the advertising columns of The Record this week. Do not overlook it.

Dr. A. N. Leonard announces his intention of spending the coming summer in New York, where he will take postgraduate work in medicine and surgery.

The U. S. Club held a dancing party in the Library auditorium Monday evening in which about forty couples participated and an excellent time was enjoyed by all.

M. H. Dalley, who has been working in the interests of the county on the records at the county court house for the past several weeks, returned home a day or two ago.

The county road roller occupies a conspicuous position on Main street just now. It is understood that it is to be used in rolling First North street in the course of a day or two.

Last Tuesday an operation was performed by Dr. A. N. Leonard on the two-year-old child of Mr. and Mrs. Jesse Williams of Kanarrville for adenoids and other nasal troubles.

Bud Jackson, J. P. Kurten and Harry J. Klein are a trio of mining men of Venice, Cal., who are investigating the mining fields of Washington county. They intend making a thorough investigation of Silver Reef, Bull Valley and other fields.—Washington County News.

Mr. and Mrs. James Parry have a child ill of pneumonia. The little one, which is about two years old, was taken ill Sunday at their ranch in the north field, but has been brought to town to receive medical attention. Dr. Leonard is in attendance.

The bids submitted for the erection of the new school building were remarkably close to each other, the variance between the highest and lowest bid was only (?) about \$28,000 on a building estimated to cost \$50,000. It looks as if some of the bidders had just closed their eyes and made a guess.

Dr. H. H. Wilkinson came up from Hurricane last evening and is spending a day or two in Cedar attending to matters of business here. He was accompanied by his little son Oral. The Doctor reports nice weather at the metropolis of Eastern Washington county, times fairly lively, and all the practice that he can possibly attend to.

Colonel Andrew Corry recently sold 40 acres of choice land with water in the North Field to Bulloch Brothers for a consideration of \$5,000. The Colonel is trying to shape his affairs around in such a way as to enjoy a little comfort during his declining years. He has also purchased one of the Geo. W. Decker homes and will, it is understood, offer for sale his hotel and present residence. In this Mr. Corry is taking a wise course.

A. H. Pike, the manager of the St. George Drug Co., informs the News that last Monday he absolutely refuses to sell any intoxicating liquors for any purposes whatever or fill prescriptions that call for intoxicants. Mr. Pike makes the statement most positively and says not a drop shall leave the store. The News commends this action of the St. George Drug Co., and believes it will have the backing of the citizens in the stand it has taken.—Washington Co. News.

Mr. D. M. Clark, a former resident and property owner of this place, returned last Sunday from Arizona and joined his family here. Mr. Clark has a flock of goats and other property interests in Arizona that still claim a part of his time and attention, but it is his intention to visit here for a time at least, and he may dispose of his interests in Arizona and permanently locate here. Mrs. Clark conducts a millinery shop here, and it is needless to say that she was glad to see her "worse" half upon his return.

The Record regrets that one of the bidders in this county did not obtain the contract for the erection of the new school building, as we should like to have seen as much as possible of this money kept at home. But we suppose that after putting outside contractors to the trouble and expense of submitting bids it was due them that the contract be awarded in good

faith to the lowest responsible bidder. Both our local contractors got cold feet after securing the work, anyhow, and raised their bids without raising their five per cent deposits to correspond, so that their bids were also objected to by other bidders on the grounds that this feature of the stipulations was not complied with.

Agent John Fife returned from Salt Lake recently with one of the latest model Ford cars. It is a beauty.

### Ye Editor Makes Tracks.

The editor of The Record created quite a little ripple of excitement in the city last night by washing his feet and taking a stroll down town in the evening. This morning his footprints were very conspicuous about the pavements, and people stood and stared in open-mouthed wonder, thinking that some tremendous giant had come out of the mountain fastnesses during the night, and had been around inspecting the town. Yes, dear readers, it was the editor who made the tracks, in proof of which we but have to call attention to the fact that Jim Tweedie and Joe Rolley are out of town, and who else could make a track like that. Besides, aren't the tracks white, and haven't we confessed to having washed our feet recently?

### Mrs. Maeser Dalley Critically Ill.

Mrs. Maeser Dalley has been in a most critical condition for three or four days this week. Mrs. Dalley, who was in delicate health, was taken down Sunday night with a violent attack of vomiting, and the following day gave birth to a still-born child. Shortly after she went into violent convulsions, and Drs. Leonard and McFarlane were in consultation upon her case. She was found to be suffering from eclampsia, due to acute Bright's disease. Her condition became so alarming that her father, Robert Gordon of Huntington, and her sister, Mrs. A. E. Leonard, were sent for and arrived here yesterday. Fortunately the remedies applied in her case proved efficacious, and Mrs. Dalley is now reported as out of danger.

Don't fail to read the advertisement in this issue of the popular Ford cars. J. H. Fife, local agent.

### Presbyterian Church Services.

The regular preaching service will be held next Sunday evening at 7:30 o'clock in the auditorium under the public library.

The subject for the evening sermon will be "Christian Liberty." We invite you to attend.

CLATON S. RICE, Minister.

### FOR SALE.

Lot No. 15, Block 20½, a good three-room frame house, barn, a new John Deere 12 inch gang plow, and a saddle horse. Prospective buyers inquire of S. F. Leigh, Phone 46F4.

Excursion Rate to Salt Lake City. Account L. D. S. Conference April 1-5-6. Return limit April 15th. Extra cars on all trains.

### BUICK AUTOMOBILES

Buick sales this month have exceeded all other makes in the State of Utah. Last week there were 29 Buicks licensed in Utah. There will be more this week. Last month there was a train load of Buicks on their way to California, each car was sold to an individual purchaser. The train was over a mile long, the largest ever shipped of any make of cars in the United States. Trucks, Roadsters, Touring Cars that give better service and last longer than the best of other cars. There is nothing quite so nice as a Buick to take a business or pleasure trip to do your work no matter what it is.

If you want to get a car that is always able to bring you home after taking you for a trip, get a Buick and feel safe.

Terms are as reasonable as any reasonable person could expect.

A. T. JONES.

Agent for Beaver, Iron and Washington Counties.

## Hudson and Dodge Cars.

Let us Demonstrate the Value, Comfort and Economy of these machines.

HALTERMAN & PAGE, Agents.

Parowan, - - - - - Utah.

Firestone Tires, Studebaker Service Station. Ford Extras and Accessories. Bosch High Tension Magnetos for Ford Cars. Gray and Davis Electric Starting and Lighting Systems. Regulate Switches, which keep lights uniform and prevents burning out. Speedier Gas Savers. Cultivator, which gives 25 per cent more mileage and power.

J. A. KOPP, Cedar City, Utah.

FOUND.—Valuable watch. Loser may recover property by furnishing description to Marshal Alfred Froyd and paying for this notice.

L. D. S. Conference Salt Lake City. Via Salt Lake Route tickets on sale April 1 to 6th inclusive, return limit April 15th. Extra cars on all trains.

### AUTOMOBILE FOR SALE.

I have a good 1914 Model Studebaker Automobile for sale. It cost \$1100.00 less than one year ago. Will take \$750 cash down, or will take a good team, wagon and harness, and the balance in cash. Am in the dry farm business and need the team. The machine will pay for itself in passenger traffic in one year. There is no bargain like it for the price. Machine is running better than when new; if you don't believe it call around and I will demonstrate the truth of my assertion.

Now is your chance to go to the Grand Canyon. Come early. S. J. FOSTER.

### FOR SALE CHEAP.

One hundred acres of brush land, the best in the Cedar Valley, just four miles west of Cedar City. Land is fenced with hog wire, has a high water right, lies in the artesian water belt, and when cropped is worth \$50 per acre. Will sell this tract of land for \$15.00 per acre. There is nothing equal to it in the valley for the money. If you want it, speak quick to S. J. Foster, Cedar City, Utah. 12.

### Keep Your Bowels Regular.

As everyone knows, the bowels are the sewerage system of the body, and it is of the greatest importance that they move once each day. If your bowels become constipated, take a dose of Chamberlain's Tablets just after supper and they will correct the disorder. Obtainable everywhere.
